Our Company

Advanced Plus is here to help you meet strict timescales and protect the safety of families with fair, evidence-based services. Our role is to work alongside you to provide essential interventions and observations to individuals, providing reports for local authorities and solicitors.

You'll easily access a nationwide panel of seasoned independent social workers and parenting practitioners from diverse professional backgrounds. We'll assign experts with the right skill sets, experiences, and language proficiencies to provide comprehensive independent assessments, observations and training. This is how we help you ensure the very best outcome.

Our Experts

Nationwide Network

Access our nationwide network of experienced Independent Social Workers, Psychologists and Parenting Practitioners to assess a range of sessional work tailored to your case. Every session provides rich detail for the purpose of evidence-building and assessment. We put the individual's needs and requirements first to build a fairer, more accurate picture.

Our Promise

Thanks to our robust Safer Recruiting process, all experts are recruited under the safer recruiter guidelines, with monthly due diligence checks. This includes DBS, ICO, Regulating bodies and professional and indemnity insurance.

Advanced A PLUS

Services

Award-Winning 24/7 in the Home Programme

Undertaken by an Independent Social Worker and a team of experienced Parenting Practitioners, our 24/7 in the Home Programme and Community-Based Supervision are delivered within the family home and in the local community over a level and period of time that is determined by the instructing Local Authority.

TOP Teaching & Snap Analysis

Both are bespoke packages of teaching and support tailored to the parents' needs. The SNAP Analysis is a complimentary service integrated into the 24/7 in the Home Programme. It focuses on determining a parent's strengths and weaknesses. In contrast, the Tops Teaching programme supports parents in their homes in developing their capacity to care for their children independently or as a stand-alone service.

Contact Supervision

The Children Act 1989 imposed a duty upon Local Authorities to promote 'reasonable contact' between a looked-after child and his/her parents and specified others, providing this is consistent with the child's welfare, and it is reasonably practical to do so.

Outreach

Undertaken by our team of experienced Parenting Practitioners, our Outreach Service supports families in various circumstances by providing necessary support and supervision for parents with their children when identified risks necessitate additional safeguards.

Programme Structures

Suitability/ Risk Assessment

- Conducted by an ISW.
- Determines if the family can proceed to the full programme.

Possible Outcomes

- Suitable for the full programme.
- Not suitable for the full programme.
- Further observation is needed to decide suitability.

Custom 24/7 in the Home Programme

- Continuous observation and support by Parenting Practitioners.
- Daily logs and detailed assessments to inform future planning and interventions.
- Complimentary Snap Analysis Programme and opportunity to utilise the TOP Teaching Programme.

Award-Winning 24/7 in the Home Programme

The award-winning 24/7 In the Home Programme, conducted by an Independent Social Worker (ISW) and a team of experienced Parenting Practitioners, provides continuous, community-based supervision and support within the family home. The programme aims to assess and support parents in their natural environment, offering a viable and protective alternative to traditional residential or parent/child foster placements.

Our 24/7 in the Home Programme is designed with your needs in mind. It's fully flexible, allowing you to choose the duration and frequency of contact that works best for your family. Some families may require around-the-clock support and supervision for professionals to develop a comprehensive understanding of family life, but we understand that's not the case for everyone! Our programme is a game-changer in the field of supervision, significantly reducing the likelihood of placement moves and enhancing the quality of evidence required in court. We're here to support you and your family every step of the way.

The families we work with here also benefit from our complimentary Snap Analysis, which focuses on determining a parent's strengths and weaknesses. Our analysis provides further evidence, detail, and observations, as well as opportunities for learning and reflection.

SNAP Analysis

- 15 optional sessions of one-to-one direct work.
- Uses pictorial aids to identify parenting strengths and needs.
- Aims to develop parenting skills and assess areas requiring support.

Our programme, in easy-to-read formatting, is a powerful tool designed to equip parents with the skills and confidence to care for their children independently. Delivered by our team of experienced Parenting Practitioners, this programme offers a personalised approach to parenting support, identifying and enhancing parenting strengths and addressing areas that may require additional support.

TOP Teaching Programme

Our bespoke Teaching, Observations, and Practice (TOP) Programme is designed to support parents in their homes, helping them develop the skills needed to care for their children independently. This additional service can be integrated into our award-winning 24/7 In the Home Programme or provided as a standalone service, reducing the likelihood of family separation by enhancing parents' abilities to effectively meet their children's needs.

The TOP Programme is ideal for:

- New or inexperienced parents: Offering guidance and support to build confidence.
- Parents with learning difficulties: Utilizing methods that harness their strengths and accommodate different learning styles.
- Parents with negative early life experiences: Helping break the cycle of abusive or neglectful parenting patterns.

Thank You
